自动文本识别 工作原理

ATR 前

此手稿页面只能通过顶级元数据才可以被找到。文本无法被检索。只能通过阅读来进行分析——这会让人觉得很累。

ATR 后

自动文本识别 (ATR) 将档案中独特的手写文档转换成可以完整检索的文本，并且可以便捷地在引文中进行研究、分析、引用和参考。

freely and humanely, nothing could resist them. In this manner a settlement could be formed and maintaines at a trifling expence, without the dreadful sacrifice of life which has hitherto attended African colonies composed chiefly of Europeans, and the importance of which to the interests of our commerce, would be incalculable. You will see by the documents I now transmit to you, the necessity of having a British authority in this part of the world, what would have become of the unfortunate people, and vessels in distress, which we have rehived had not the British flag been on this island

I do most humbly and earnestly advise that some further steps be taken to retain possession of this beautifne island, a that some spot on the opposite coast, or up the Niger be selected to plant a British colony on

I have only to add, that I am ready to do my best in conducting any of these enterprises that it may please Sis Majestys Government to entrust me with

I have the honor to be Sir
